Bi-d adjustment

Please look at the printed sheet, select the number of the pattern with the least roughness from the list for #1 - #3 by clicking the ▼ below, and click the "next" button.

If there is no appropriate pattern and all of the patterns seem rough, then select the number of the pattern with the least roughness and click the "readjustment" button.
A sheet for Bi-d adjustment will be re-printed.

Further, if there are modes that do not require readjustment among #1 - #3, then turn the check on the right of the list OFF for those modes.
